Dear Gentlemen:

Refer to Samuel Unger's December 18, 2015 "Order to Submit Information", which I received via certified mail. Somehow, the California Division of Oil, Gas and Geothermal Resources has provided your agency with erroneous information.

Contrary to Mr. Unger's Order, Gibson Exploration, LLC and Hartley Natural Resource Development have no oil and gas operations in Los Angeles nor Ventura Counties. Neither of these entities have operations in Los Angeles or Ventura Counties.

By copy of this email to DOGGR, I ask that DOGGR immediately take the appropriate measures to correct its data base.

Sincerely,  
Roger Hartley
